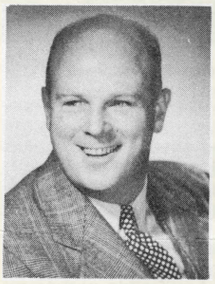
COMMUNITY CHEST

16 COMMUNITY AND WELFARE AGENCIES SERVING OSHAWA AND EAST WHITBY

IT'S OUR CHEST - LET'S FILL IT

LET'S MAKE IT "5 STRAIGHT" FOR '51



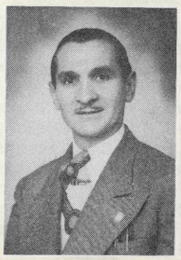
MURRAY JOHNSTON
Campaign Manager

The most wonderful thing about going on a long trip is the home-coming at the end of your journey. This is particularly true if you come home to Canada and especially true if your home is OSHAWA.

Yes, friends and neighbours, our own Oshawa is the finest city in the finest country in the world!

That's a pretty sweeping statement but none the less it's true! And what makes it so? I will say it is our great Community Spirit—and what better medium of translating Community Spirit into fact can we find than the record of our Community Chest? For the past 4 years we have led all Canada in per capita giving. Let's make it 5 straight for '51 and really show Canada how Oshawa Red Feathers its nest!

LOCAL 222 PRESIDENT ENDORSES RED FEATHER



The annual campaign for the Red Feather services is now upon us. As Union Men we have no hesitation in unanimously endorsing this drive.

Once a year we are requested to participate in a united effort to raise funds for the community. The many services supported in this manner do an untold amount of good in our city. Without Red Feather services, many adults and children would certainly be without recreation.

The quota for this year should easily be reached by the citizens of Oshawa, and as Unionists you are urged to give all you can.

Support the "Red Feather".

CHRIS MASON, *President.*

"Throwing a Ringer" - Horseshoe Instructions by C.R.A. Supervisor

1951 - CAMPAIGN OBJECTIVE - $112,900

GREATER OSHAWA COMMUNITY CHEST

16 ORGANIZATIONS PARTICIPATING

Total Campaign Objective	$112,900

CAMPAIGN DATES: OCT. 24 to NOV. 3rd

The Start of Annual Soap Box Derby Supervised by C.R.A.

Community Recreation Association

Recreation belongs to everyone-without distinctions of age, creed, or interest—and with financial help from the greater Oshawa Community Chest, the Oshawa and District Community Recreation Association enters upon its sixth year of providing for the citizens of Oshawa a recreation programme whose slogan is "All ages, all interests—year round."

Summer time is youngsters' time, with C.R.A. in conjunction with the city's Neighbourhood Associations providing a supervised programme daily from 9:00 a.m. to 9:00 p.m. on eighteen playgrounds and two swimming pools.

In the summertime more than one in two of Oshawa children of school age take part daily in the C.R.A. playground programme, while one in four of the total population of the city-young and old alike—participate daily in the community functions on the neighbourhood parks.

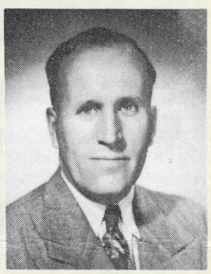
Lacrosse, baseball, softball, basketball, crafts, and drama are just a few of the activities that are available during the summer.

Another Community Chest agency, the Red Cross Society, joins with C.R.A. in providing a swimming and water safety programme during the summer months.

From September to June, the recreation programme is carried on at the Oshawa Recreation Centre on Gibbs Street, with trained instructors catering to the physical, social and cultural needs of every group in the community, from the elementary school to the senior citizen through craft and social clubs. Another feature of the fall programme in 1951 will be the operation at the Recreation Centre of the group for the Blind, through which two Community Chest organizations, C.R.A. and the Canadian National Institute for the Blind, will combine with the Oshawa Lions Club to make special provisions for the recreational needs of Oshawa's sightless citizens.

During 1950 there were some 76,834 attendances at the Recreation Centre by people participating in the activities of C.R.A., and its affiliated clubs and organizations, while there were over 160,000 attendances at the summer activities in the community playgrounds.

IT'S RED FEATHER TIME IN OSHAWA



STEWART ALGER
General Chairman

Once every year the Red Feather symbol is proudly displayed in Oshawa. During the next two weeks, Greater Oshawa Community Chest is holding its annual Campaign. For 10 years now in Oshawa we have had "One Campaign a Year" to raise funds for the social and welfare work of our community. This annual appeal has been accepted by all our people as a good plan — "It saves time and money."

Over 500 workers give voluntarily of their time to the Chest to canvass in factories and homes. Think of the time saved, also the extra cost entailed if there were 16 separate campaigns each year. Your contribution goes for the purpose it has generously been given—to help carry on the work during 1952 of the 16 "Red Feather" Agencies banded together in the Chest. Costs are up this year and we have been forced to increase the Chest Campaign objective by approximately 10%; please do not forget when making your contribution.

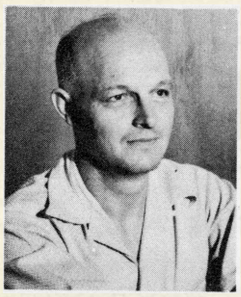
We should feel very proud of the work being done by these Agencies so unselfishly for the members of our community at large. Through the years, Oshawa has become one of the best organized cities in Canada—with parks, playgrounds, recreation centres, camps, swimming pools and many other assets; all of which make our city a fine community in which to work, do business and live. Let us preserve this heritage and through our Community Chest, all work together for the common good.

Oshawa's 16 Red Feather Agencies are "Organized Friendship" at work in our city.

Give generously and let's again exceed our Campaign objective! Wear the Red Feather proudly; it is your badge of membership in a good community.

C.R.A. Hobbycraft Classes for Men "Old and Young"

Labour Endorses Community Chest



ED. CLINE
President, Oshawa and District Labor Council

Self-help has been one feature of our Canadian life from the days of the early settlers to the present. The agencies grouped around the Oshawa Community Chest give service to the community from moneys collected by the people.

Self-help has caused industrial workers to join in unions. Organized labor recognizes its responsibilities to the community and that is why I, as president of the Oshawa and District Labor Council, have no hesitation in supporting the objectives of the Oshawa Community Chest.

I urge my fellow workers in Oshawa industry to give generously to the Community Chest in its drive for funds.

Oshawa Branch V.O.N.

V. O. N. is a service which provides bedside nursing care for people who are ill in their own homes. The nurse stays in the home long enough to give the patient the care they need always working under the orders of the Doctor on the case. Later another member of the family is instructed to care for the patient during the time intervening between the visits made by the V. O. N. Anyone may call for the services of a V. O. N. who may be reached through the Nurses Registry 5-2211. With hospitals so crowded these days nurses are being called more often into the house. Two public health trained nurses serve the people in Oshawa at present but soon a third nurse will be necessary to meet the increasing demand for skilled nursing care at home.

From January 1—June 30, 1951, 2160 visits were made. Of these, 945 were made to Chronics as cardiacs, pernicious anemias, etc. 213 were made to medical and surgical cases, 652 to mothers and babies, 30 to Cancer cases and the remaining visits were made for health teaching purposes.

Visits are made to Old Age, Blind pensioners and to Mothers Allowances cases free of charge.

Limited benefits are now available to subscribers in Blue Cross Plan for Hospital Care in Ontario to provide *V. O. N.* service.

Another V.O.N. Visit Completed

Christmas Musicale by Girls Choir at Oshawa Y.W.C.A.

Oshawa Y.W.C.A.

"A Programme For Everyone" is a heading on the inside of the Oshawa Y.W.C.A. folder which tells of all branches of activities planned for the coming season. The wee tots have morning nursery, the Juniors their Sat-R-Day camp which consists of an enthusiastic group carrying on from last July Day-camp where over 125 youngsters nine to twelve years of age carried out a regular camp program. Junior leaders help at camp too, and all during the year have practice games, crafts and dancing.

Seniors at Adelaide House have many lists to choose from, for business girls, married ladies or mixed groups. There are craft projects in leatherwork, gloves, moccasins, felt work, weaving and other allied crafts. The eight floor looms produce place mats, scarves, aprons, table-cloths, bed spreads, upholstery, drapes and varied materials. All are made in a gay friendly atmosphere of the workshop attractively decorated in soft grays, turquoise and yellow.

Other Y.W.C.A. services include a homelike residence for thirty-five young women, with reasonable rates for room and board. A Residence Supervisor is house mother and counsellor; and house representatives are elected by the residents. Regular meetings and informal gatherings are held which add to the friendliness and understanding within the house.

A complete Registry has available rooms in the community listed for the convenience of those requiring accommodation.

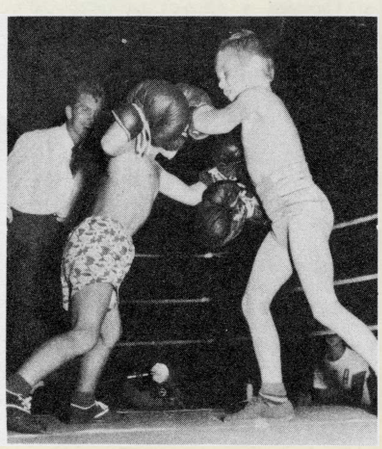
A Rooms Service for the drawing room, library and recreation rooms is available for group social gatherings, weddings, receptions, showers and social evenings.

The Y.W.C.A. stresses small group work and individual growth in leadership and skills.

All activities are carried out through the purpose of the Y.W.C.A. to build a fellowship of women and girls devoted to the task of realizing in our common life those ideals of personal and social living to which we are committed by our faith as Christians. This, in its broad sense, is open to every race and creed. Members form the policy of the local Association and are connected with Y.W.C.A.'s throughout Canada and the world-wide Association in over 65 countries.

The local Association with its Board of Directors has eleven standing committees. Volunteers and staff work in close cooperation. All general full-time staff now have at least three to six years Y.W.C.A. service at Adelaide House.

The Cafeteria and Residence are self supporting departments and contribute to the operation of the Building and Programme. It is only these last two divisions which are assisted in their operation costs by the Community Chest. To continue this and other Red Feather services to the community, it will require everyone to support the Community Chest wholeheartedly, and materially as well.



C.R.A. Activities cover many fields and help build better Citizens.

Women's Welfare League of Oshawa

Interested Group at Simcoe Hall

Here in Oshawa, as in all other communities, there are youngsters who are compelled to find their entertainment and companionship beyond the bounds of their own homes. To be sure, children are and must remain the responsibility of the parents. But with overcrowding conditions prevailing today, the high cost of housing enforcing smaller homes, limited resources, and many other contributing factors, it is difficult for parents to maintain control of their children at all times.

It was in response to the evidence of these needs in Oshawa, in 1934, that Simcoe Hall Settlement House was established to supplement the homes of the community—by providing space, equipment and guidance for the promotion of wholesome companionship, to give counsel in personal problems, to combat delinquency . . . In short, to build good citizens.

For the past year, the average daily attendance at Simcoe Hall has been around one hundred and fifty—including children from four years old who attend our nursery school, to members of the Golden Age Club — many of whom are in their eighties.

In the twenty-four various clubs and classes held each week for children from four to sixteen years, good citizenship is stressed. The home of each child attending is visited by a worker. Such visits not only assist in understanding the individual child, but serve to create and build confidence between the home and the child's club activities. Many of the boys and girls now in teen-age groups have attended Simcoe Hall since their nursery school days.

The activities cover many fields of interest. Our Clubs are of two types—age group clubs and the special interest groups. Programmes include the various arts and crafts, model building, radio building, cooking demonstrations, stamp collecting, cadet corps for teen-age boys and girls, organized sports and social events. In addition there are many classes—nursery school, speech correction, first aid, home nursing, dressmaking, piano lessons, and special citizenship classes for children, conducted by the Royal Canadian Mounted Police.

Drama, Sports and Hobbies available for all.

Aid to Oshawa Blind

Special Teachers help Oshawa Blind to become independent

At the creation of the world, the first divine fiat is "Let there be light". Light is of course the first necessity for all normal life. Yet many of our fellow citizens are compelled, by accident or disease or unfortunate circumstance to spend their lives in twilight or complete darkness. These are the special care of the Canadian National Institute for the Blind. In Oshawa there are thirty-seven people registered with the Institute. Their interests are the concern of the local Advisory Board aided by the experienced assistance of a trained field secretary from national headquarters. The guiding principle is to help them to live as nearly normal lives as possible, to encourage self help, to afford them a wide variety of training in economic and social activities and to bring as much happiness as possible into their lives. As a result a number of the registered blind in Oshawa are self maintaining. Many of them have received training in arts and crafts with a public sale of their products as an incentive. With the co-operation of the Lions Club measures have been taken to encourage social gatherings and recreation, and these are meeting with success. Reading material and talking books are made available; radio licenses, transportation passes and free movie admissions are provided. Much valuable work is done by the Institute amongst children and adults in conservation of sight. Clinical examinations are offered. Glasses are provided. In the case of many young people special teachers are employed to aid their education. Representations to successive governments have secured pensions for blind persons at the age of twenty-one. Constant research is carried on to extend ways and means of making the blind independent, in encouraging normal ways of living, and ensuring social happiness.

Oshawa Sea Cadets

The Royal Canadian Sea Cadet Corps "Drake" is a voluntary youth organization with two objectives. To give of 14 to 18 years of age such sea training and other training as will develop in them those qualities which make good citizens. And to help those boys who wish to make the sea their career. All uniforms and equipment are supplied by the corps.

Each Sea Cadet has the opportunity of attending summer camp provided by the Navy League of Canada and the Naval Service. These camps are in Georgian Bay, Comox, British Columbia and Deepbrook, Nova Scotia. Cadets may attend one or all of the camps during his training with the corps.

Sea Cadet training includes seamanship, gunnery, rifle shooting, navigation, swimming, life saving, first aid, signalling, and band.

Also included in the activities are social evenings, dances, boxing tournaments, and sports of all types.

Oshawa Girl Guides

Through the continued assistance of the Community Chest, Guiding in Oshawa is making steady progress. We are greatly encouraged at the increase in membership. One new Brownie Pack has been opened in the South District, and as soon as we can provide and train new leaders, we are looking forward to new packs and companies in the outlying districts.

Emphasis has been put on training, both in Oshawa and at the Doe Lake Provincial Camp, also at Hawkestone Camp near Barrie. Plans are under way for Brown Lanyard training during the next few months. The latter to be held in Guide House.

Guiding is International and Empire-wide, giving equal membership to every girl whatever her nationality, class or color.

Girl Guides in Parade Float

Few people realize there are Extension Guides and Lone Guides. Girls who are blind, deaf, or suffering from any kind of disability can join the Movement. These are called our Extension Guides. A Lone Guide is one who lives a distance from a company, and so, unable to join a company, carries on by means of Company Letters.

The Spiritual Basis on which the Guide Movement rests is emphasized by the fact that the words "duty to God" come first in each Promise.

Where to Mail Your Cheque

Christmas Cheer

The Christmas Cheer Committee since its inception has filled an important place in the life of the community providing cheer for thousands of less fortunate Oshawa citizens. This work was started during the years of the depression when so many people were on relief.

Today the Committee looks after the needy aged, Mothers' Allowance and relief families as well as families recommended by churches. Each case is thoroughly investigated by officials of the city's Welfare Department before action is taken.

Last Christmas the Committee expended $541 to aid 178 aged needy, $234 to assist 67 Mothers' Allowance cases, $267 to make the festive season brighter for 59 relief cases and $304 for special cases. In addition $72 was spent for Oshawa residents of the County Homes at Whitby and Cannington. Christmas cakes were provided for the members of the Golden Age Club and toys for given to a number of needy children.

In all a total of $1,470.72 was expended by the Committee, including administrative costs of $55.26. This year, despite the fact that an additional burden is anticipated as a result of the annexation of sections of East Whitby Township, the Committee has again set its budget at $1,500 which it feels is a very conservative figure.

Every citizen who contributes will enjoy the festive season better knowing he had helped brighten the homes of the less fortunate. The need is worthy. Help Make Happy Homes at Christmas.

Red Cross Homemakers

Oshawa Boy Scouts

Outdoor life builds alert Citizens

Canada today has 125,000 Cubs, Scouts, Rovers and Leaders, of that number Oshawa Scouting contributes 1,250. It is a recognized fact that there is a greater need today more than ever in any other stage in our community history for the development of citizens imbued with faith in a power greater than themselves, blessed with stability in their social contacts and aware of the need for resiliency to meet the changing conditions in which they live.

The Oshawa Boy Scouts Local Association have set themselves up GOALS of ACHIEVEMENT, improvement of training of the leader and the boy, expansion of facilities to embrace more boys into the movement locally. Oshawa at the present time holds the enviable record known of 51% of all boys between the ages of 8 years and 16 enrolled in the schools of Oshawa being members of Oshawa Scouting.

Good Turns are a unique feature of The Boy Scout Programme. It is essential therefore that we foster and develop both the individual and community Good Turn; to this goal Oshawa Cubs, Scouts and Rovers have offered their services to the local Civil Defense Organization. In the months to come as a part of their training programme scouting will train to Be Prepared, to rally for public service at all times and especially in the event of emergencies, such as floods, fires and other disasters. The term "other disasters" has a grim significance these days. Never before has the scout motto "Be Prepared" carried greater meaning, or for the people of the community greater responsibility to make sure, that by their generosity and contributions to Community Chest, Scouting will be able to achieve its goals.

It is through Community Chest that The Boy Scouts Association is appealing to the generosity of the citizens of Oshawa to help in maintaining the facilities scouting holds for the boy. In requesting once again your generosity Scouting remembers your sympathetic understanding shown them during many years of activity in Oshawa and district.

Willing hands make willing hearts —one good deed deserves another.

A MESSAGE TO MY FELLOW CITIZENS

The Oshawa Red Feather Campaign has become a great rallying point for citizenship and service to our community. Year after year a faithful group has constituted itself a task force which has repeatedly exceeded the financial objective. This has been possible because everyone realizes we have our social agencies efficiently organized for the greatest good. Contributions by individuals are made with assurance of good leadership and good management and so the Community Chest drive in Oshawa unfailingly goes over the top.

It is not hard for us to realize as individuals that our economic well-being is closely linked with the well-being of the community as a whole. We must see with equal clarity that we are also dependent on the community in a social sense. Co-operative effort and sacrifice upon the part of all of us are necessary if we are to have full and happy lives. The Red Feather is a fine example of community activity for which we must all assume some responsibility if we are to deserve and preserve the kind of citizenship which people of Oshawa are proud to share.

The Community Chest objective this year is higher. Our city has grown, and with it the scope and opportunity of all the service and welfare organizations. It is our responsibility to see that funds are not lacking as the field enlarges and the needs increase.

Once more the Canadian Red Cross Society is combined with our once-a-year appeal in Oshawa. This great organization deserves our spontaneous and generous aid at all times.

I am confident that all of us this year will do our best to establish a new high level of support for all the national and local organizations which are linked in the joint appeal.

R. S. McLaughlin

Honorary Chairman,
Greater Oshawa Community Chest.

St. John's Ambulance

Are you familiar with the St. John Crest? When you attend a public function do you look for the First-Aid Post? Do you know how to give First-Aid to the injured?

The St. John Crest—The white cross on a black background. The four arms of the cross symbolizing the Christian Virtues, Prudence, Temperance, Justice and Fortitude.

The First-Aid Post—is much in demand where many people gather—the Soap Box Derby Races (C.R.A.), Motor Cycle Races, Oshawa Fair, Union Picnic, Public School Field Day, are a few activities where service was given to participants and spectators. The Ambulance Division and our Cadets circulate through the crowds and transport the sick or injured to the "Post" where the nursing division attend to the "hurt". This service by the members is voluntary and they spend many hours practicing, and studying. Each year there is an inspection by the Provincial Commissioner and an examination to pass to keep the standing of the Brigades at a high level.

Do you know First-Aid?

Every mother should have a knowledge of Home Nursing and every motorist, vacationist and worker should know how to splint or bandage an injury or apply Artificial Respiration. Ignorance is not bliss in emergencies. You might save a life with knowledge or cause more damage by doing the wrong thing.

Home Nursing and First-Aid classes are sponsored so that we can have a well trained community—watch for the coming classes so you can participate.

East Whitby Welfare Association

The annexation to Oshawa of a portion of the township had a very large effect on the whole setup of recreation for East Whitby. The remaining portion of the township are carrying on, and two more centres (Conlins and Peremen's) now make a total of five locals, which makes for good recreational leadership.

Social evenings were held during the winter, and in the absence of rinks, some centres provided their children with transportation and admission to other rinks. Leathercraft was promoted in some places. A good Intermediate Softball League has been organized; also Public School teams. Most centres have volleyball and horse-shoe equipment, and all have erected swings. The responsible committee has already under consideration, plans for skating this winter.

**St. John's Cadets today—
To-morrow's Citizens**

Attention! Right dress! Eyes front! Military commands? Yes, heard once a week at Simcoe Hall where teenage boys and girls are learning how to help themselves and others too.

Your "attention" is drawn to the "right dress" of the year for the boys and girls 11 to 18 years of age—the uniform of the St. John Cadet, and, "eyes front" to some of their achievements; proficiency in First Aid and Home Nursing—many with Sr. Certificates, drill, care of animals, citizenship, nutrition, camping and nature study, health and hygiene, and many others.

Above all is the fact that close to 150 boys and girls are establishing the beginning of a firm, good citizen foundation by learning to aid others. Many have enjoyed this experience by volunteering for Public Duty at First Aid Posts on numerous occasions.

CHILDREN'S AID SOCIETY

Because of the grant received from the Community Chest, The Children's Aid Society are able to do a more thorough job in their work of helping families meet many problems; problems that could have easily broken up homes instead of bringing them together.

The work also continues among unmarried mothers bringing to them a friend and counsellor when they desparately need one. Helping them to work through their own problems and helping them to plan for the child, whether that plan is to keep and care for their own child or to surrender it in order that it may be placed for adoption.

It would be hard to estimate the happiness and satisfaction which has been brought to many homes through the placing of children for adoption—not only does the child benefit in that in place of an uncertain future the child finds security and affection in a family, but the family also benefits in that, though nature may have denied them a child, it is made full and complete by the introduction of a child.

The Community Chest grant enables the Society to employ skilled and experienced workers who are able to assess the needs of the home and the needs of the child and so help to avoid unsatisfactory placements.

CANADIAN RED CROSS

The Peace time program of the Canadian Red Cross Society is to assist in the work for the improvement of health, the prevention of disease, and the mitigation of suffering generally.

The Oshawa Branch of the Canadian Red Cross Society includes in its administrations the following services:

HOMEMAKERS SERVICE (extended to the Township of Whitby). The aim of this service is to help families through emergency periods, thus allowing the father to remain at work.

LOAN CUPBOARD. A supply of sick room equipment is kept on hand and is available for lending where required.

KNITTING AND SEWING. The output of this department includes socks, pyjamas, bed jackets, pillow cases, sheets, babies' clothing and many other articles.

SWIMMING AND WATER SAFETY. This department works in conjunction with the C.R.A. summer program to provide ample instruction for the children in elementary swimming and water safety.

DISASTER AND EMERGENCY RELIEF. In the event of Fire, Flood or Sickness of epidemic proportion, this service will give immediate aid in the form of bedding, clothing, food, etc.

WELFARE DEPARTMENT. This department functions for the benefit of Veterans and Civilians and stands ready to alleviate distress through sickness or other extenuating circumstances.

The Red Cross is always ready to lend a hand wherever needed towards the reduction of suffering particularly in Great Britain. In 1947 the Red Cross shipped to Great Britain and other countries relief supplies valued at $3,391,133.

OUTPOST HOSPITALS. The Red Cross now has 71 of these Hospitals in operation across Canada and 11 more are now being built, rendering most valuable aid to the sick and suffering where Doctors and Nurses are few and far between.

The Salvation Army

Help and comfort to those in need

The task of The Salvation Army has always been clear. It is the salvage of human wreckage . . . of body, mind and spirit.

The Army pursues this task in the spirit of Him who said: "The Son of Man is come to seek and to save that which was lost." To The Salvation Army no human being is worthless. Its mission is to prove the value of those whom the world views as beyond hope.

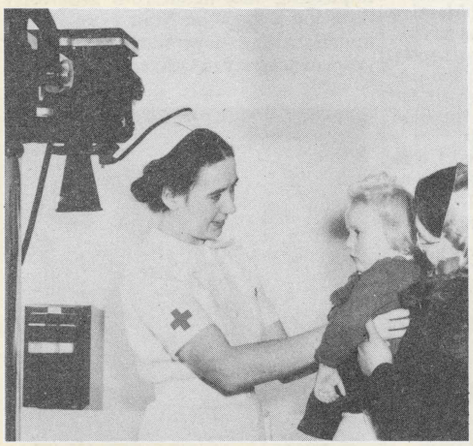
To the victim of sin or circumstance, young or old, the understanding heart and the human touch of The Salvation Army bring . . . another chance. And with it, another opportunity for usefulness to the community.

The Salvation Army has a saying that the word "Hopeless" isn't in God's dictionary. It also believes that God generally works through human instrumentality, such a belief often involves Salvation Army officers in works of mercy that test compassion to the limit and faith to the utmost.

The success, however, that The Salvation Army has had in dealing with the distressed and the despairing, the defeated and the dissolute, has commended its activities to Canadians everywhere.

Almost every Salvation Army Officer can provide dramatic stories of blasted lives, impoverished families, stories of crime and tragedy, of mistakes or failures. Most of the stories, fortunately, have a happy ending. In Canada more than one hundred Salvation Army social service institutions, plus a multitude of various services, help in assuring that "happy ending" to many a sad and sorry tale.

The Army combines material aid with spiritual comfort and inspiration in a manner the years have proven to be effective. Day in, day out, trained and devoted Salvation Army workers continue this never-ending task, backed by the physical equipment which your dollars make possible. By contributing generously to the Red Feather Appeal, more Canadians can be almoners of hope and dispensers of courage to their less-fortunate fellows.



Mobile X-Ray units are used in many Red Cross Outpost Hospitals
